

INHALANTS

	HUFFING: THE LATEST FACTS ABOUT INHALANT ABUSE		GRADES 5-9	20 MIN	This gripping program shares unforgettable real stories of teens fighting their abuse of inhalants, as well as two families who lost children to inhalant abuse. One interview segment involves an Ohio police officer whose son died after a brief experiment with inhalants. Another recounts a recovering user who learned first-hand that huffing inhalants is not only perilous, but can quickly lead to other types of drug abuse. In between the real stories, a group of teens talk directly to viewers addressing the addictive nature of inhalants and clearly outlining the damage these toxic chemicals cause to the brain, heart and lungs.
	INHALANTS	2010		20 MIN	Since chemicals in more than 1,400 products can be sniffed or huffed for their psychoactive and mind-altering effects, it's not surprising that inhalants are the most frequently abused substances in the U.S. This video explores the history of inhalant abuse; the effects of inhalants on the body and the short- and long-term health impacts; and teenage attitudes toward inhalants. The major classes of commonly abused inhalants and treatment and prevention measures are described in the video as well.
	INHALANTS: NO HUFFING	2006	GRADES 3-6 AND 9-12	24 MIN	Sarah, Josh, and Kelsey are facing the toughest decision of their lives. Their friend Jacie has died from inhaling chemicals. The realization is made that another one of their friends is in the same danger. They get caught up in a moral dilemma between not wanting to be labeled as "uncool" and saving their friend's life. What will they do? "Inhalants: No Huffing", uses intense visuals and music to tell a morality tale about an issue that is of great concern to teenagers, not being labeled as a "snitch" no matter what the consequences. This program was designed to appeal to young people with a unique approach to the educational film genre.
